Participation in Co-Curricular Activities is a Privilege not a Right

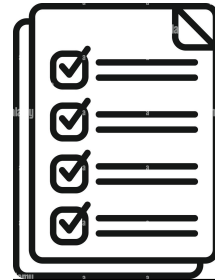

High Standards of conduct and citizenship are essential precepts of the school district's extracurricular program. These high standards include instilling students with a positive attitude, building strong character, teaching responsibility, and demanding integrity. Participants must set a positive example and be a role model for all. To maintain high standards for all extracurricular programs throughout the entire school district, a firmly enforced code of conduct is necessary. Therefore, all participants shall abide by a code of conduct specifically for extracurricular activities.
